The Emancipation Schewe. The Louisville Democrat says: "The conser vative men and Democrats will revolt at the idea of paying out of the earnings of white men thous ands of millions for the idle, worthless negro, who would not be free if he could, and couldn't if he would."

Relieved and Beinstated. It will be seen by the Presidential war order of the 11th inst., that General McCLELLAN "having personally taken the field at the head of the army of the Potomac," is relieved from the command of the other military departments. By the same order General FREMONT is restored to active duty and given the command of a military department east of the Department of the Mississippi, and west of the Department of the Potomac. This new state of affairs look as though there had been a change of policy. General FREMONT was removed from command for incompetency, and for reckless extravagance. Gen. McClellan was supposed to be in favor with the Administration on account of his conservative tendencies, while Gen. FREMONT was regarded as out of favor with the powers that be in consequence of his aboli tion sympathies. Matters now appear to be reversed. McClellan is no longer General in Chief and FREMONT is restored to a command equal to that before he was relieved. Considerations other than military may have caused these changes, for the development of which we must patiently wait. The course of affairs now indicate that the radical Republican policy is final ly in the ascendant.

The Tax Bill. The bill reported by the Committee of Ways and Means "to provide internal revenue to support the Government and pay interest upon the public debt" would more than fill two entire pages of the Sentinel. A cotemporary justly entitles it "the most stupendous scheme of taxa tion ever submitted to the American Congress." The bill is most comprehensive and thorough in its provisions. Everybody is taxed; everything is taxed. Every article of necessity, as well as every article of luxury is put under contribution to provide the means to support the Government. Candles are taxed, as is oil, burning fluid and gas. Soap, sugar candy saleratus, starch, brooms, pails, pins, hoop skirts, umbrellas, salt, flour, and every other conceivable thing, must hereafter be impressed with the taxgatherer's stamp. And these additional burdens upon the industry of the country are imposed by the representatives of a party-the Republican party-which proclaimed the necessity of economy, of retrenchment, and of retorm in the administration of the Government. Never before since the Government was organized, has there been such reckless extravagance, such infamous corruption, such bold and ex'ensive robberies of the public treasury, as have occurred during the one year's Republican rule; and the people will soon begin to feel the results through the army of

There is a great deal of affected patriotism now-a-days. Men who have been life-long partirans and recipients of party favors have suddenly become very much concerned as to the necessity of sustaining the Government. "Away with party creeds, away with party conventions," say these now zealous no-party patriots, "we will go into no party convention until we have a country." Such expressions are regarded just now by zealous Republicans as the quintessence of patriotism. The principles and policy which give value to a, or the, Government must no longer be discussed, say these flippant patriots, until we know whether we have "a country." This class appear to be concerned solely about securing or continuing a Government with little or no regard as to its character. England, Ireland and Scotland have a Government; so have France, Spain,

tax-gatherers which will ere long be imposed upon

"A Country."

the country.

Austria and Turkey, but they are Governments of oppression to the producing classes. It has been the freedom from public burdens, a cheap Government and the consequent increased compensation to industry over that of the nations we have alluded to, that has attracted emigration from them to our own. The Irishman and the German have left their fatherland and made themselves citizens of the United States for the reason that they could better their social condition by securing a larger compensation for their labor. This is the consideration that has attracted to our shores the great body of our adopted citizens. When this attraction ceases, immigration will stop, for men will not leave the land of their birth, the homes of their fathers, unless to better their own condition and that of their children.

We have a country and we have a Government. We say let us maintain and preserve them upon the principles under which we have prospered and progressed in an unparalleled degree. We are not struggling merely for a Government, for that we have beyond a question. We have a Presi dent, a Cabinet, a Congress in session, a vast navy, an army of six hundred thousand men in the field, and hastiles where men are confined for opinion's sake upon the mere ipse dixit of those in power, and yet we hear the cant, "Away with party creeds, and party platforms, and party prejudices, until we have a country." A little more than a year ago a statesman stood up in the Senate and ottered a withering rebuke to the demagogues who, under such pleas, were affecting a patriotic devotion to their country beyond the men who were striving to preserve the Union as it was, with all the blessings it had conferred. Never were uttered truer or more eloquent sentiments, and we reproduce them now as equally applicable to the present condition of affairs as

when they were spoken:

But we are told, and we hear it repeated everywhere, that we must find out whether we have tot a government. "Have we a government?" is the question; and we are told we must test that question by using the military power to put down all discontented spirits. Sir, this question, Have we a government? has been propounded by every tyrant who has tried to keep his feet on the necks of the people since the world began. When the Barons demanded Mugna Charta from King John at Runnymede, he exclaimed, "Have we a Government?" and called for his army to put down the discontented Barons. When Charles I attempted to collect the ship money in violation of the Constitution of England, and in disregard of the rights of the people, and was resisted by them, he exclaimed, "Have we a government? We cannot treat with rebels; put down the traiors; we must show that we have a government " When James II was driven from the throne of England for trampling on the rights of the people, he called for his army, and exclaimed, "Let us show that we have a Government!" When George III called upon his army to put down the rebellion in America, Lord North cried lustily, se with traitors; let us demo strate that we have a Government." When in 1848 the people rose upon their tyrants all over Europe and demanded guarantees for their rights, every crowned lead exclaimed, "Have we a Government?" and appealed to the army to vindicate their authority and to enforce the law.

Sir, the history of the world does not fail to condemn the folly, weakness and wickedness of that Government which drew its sword upon its own people when they demanded guarantees for their rights. This cry, that we must have a Gov-ernment, is merely following the example of the besotted Bourbon, who never learned anything by misfortune, never torgave an injury, never for got an affront.

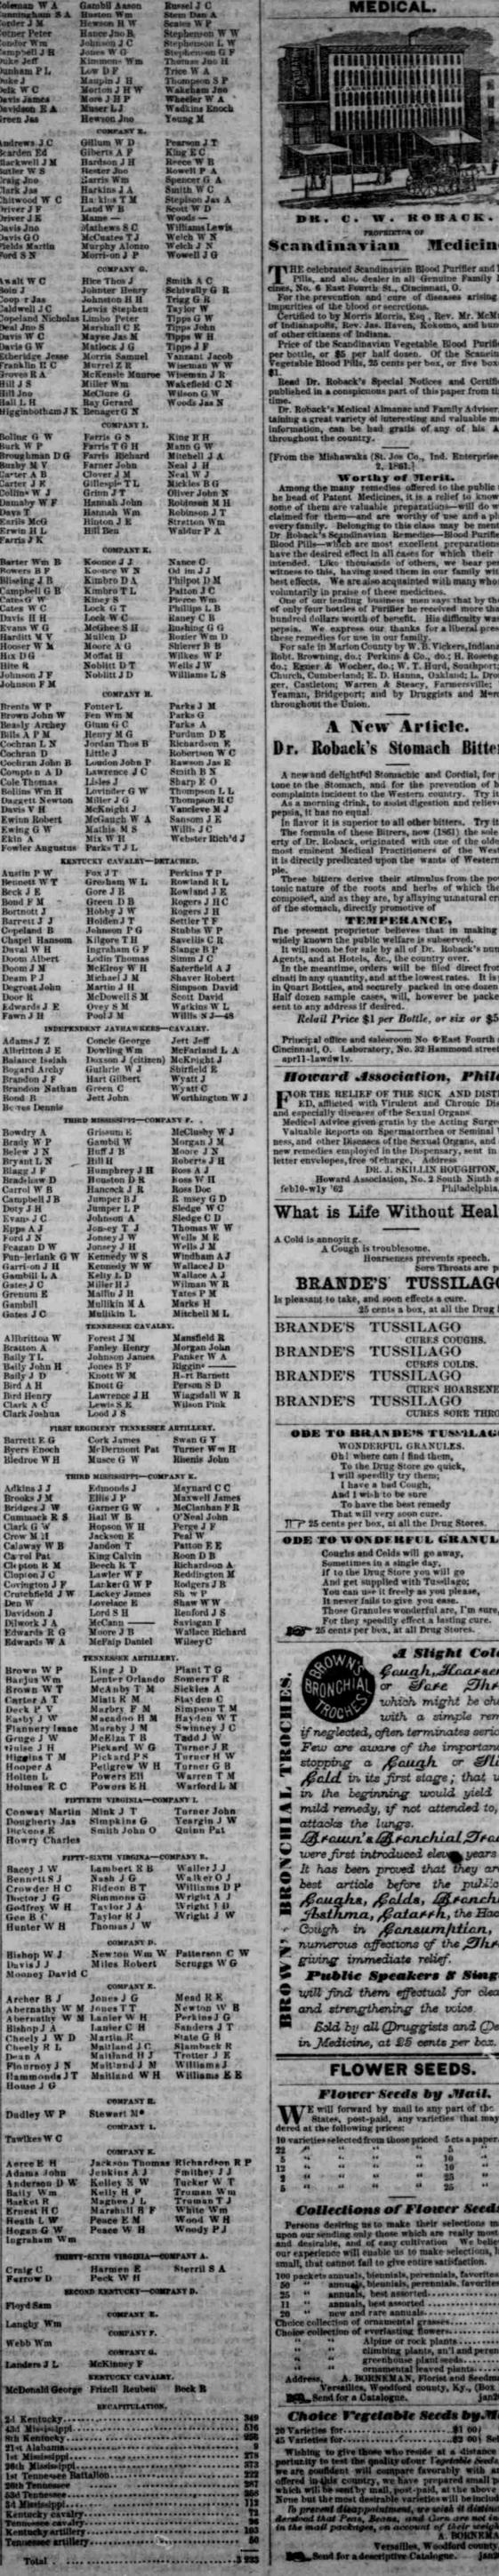

STRAWS, &c .- The Democrats of Rochester New York, achieved a triumph in the city election on Tuesday last. They succeeded in electing the majority of the City Council and Mayor. This decided change in public sentiment is a straw which shows the way the wind is blowing.

Worthy of Merit.

Imong the many remedies offered to the public under head of Patent Medicines, it is a relief to know that he of them are valuable preparations—will do what is imed for them—and are worthy of use and a place in ry family. Belonging to this class may be mentioned Roback's Scandinavian Remedies—Blood Purifier and to Pills—which are most excellent preparations, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in the such as a so acquainted with many whospeak inntarily in praise of these medicines.

The of our leading business men says that by the use only four bottles of Purifier he received more than one nitred dollars worth of becefit. His difficulty was Dyspis. We express our thanks for a liberal present of seremedies for use in our family.

Scrofula, or King's Evil

Is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unbealthy food, mpure air, filth and filthy habits, the depress vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed it seems to be the rod of Him who says: "I will visit the iniquities of the fathers upon their chil-

Ague Cure,

FOR THE SPEEDY CURE OF Intermittent Fever or Fever and Ague, Hemittent Fever, Chill Fever, Bumb Ague, Periodical Headache, or Billions Headache, and Billious Fevers, indeed for the whole class of diseases originating in Biliary derangement, caused by the Malaria of Minsmatic Countries. We are enabled here to offer the community a

remedy which, while it cures the above complaints with certainty, is still perfectly harmless in any quantity. Such a remedy is invaloable in districts where these afflicting disorders prevail. This "Cure" expels the misasmatic poison of Fever and Ague from the system, and prevents the development of the disease, if taken on the first approach of its premonitory symptoms. It is not only the best remedy ever yet discovered for this class of complaints, but also the cheapest. The large quantity we supply for a dollar brings it within the reach of everybody; and in billious districts, where Fever and Ague prevails, everybody should have it and use it freely both for cure and protection. A great superiority of this remedy over any other ever discovered for the speedy and certain cure of Intermittents, is that it contains no Quiniae or mineral, consequently it produces no quinism or other injurious effects whatever upon the constitution. Those cured by it are left as healthy as if they had never had the

Fever and Ague is not alone the consequence of the mias:natic poison. A great variety of dis-orders arise from its irritation, among which are Neuralgia, Rheumatism, Gout, Headache, Blind-ness, Toothache, Earache, Catarrh, Asthma, Palpitation, Painful Affection of the Spleen, Hysterics, Pain in the Bowels, Colic, Paralysis and Derangement of the Stomach, all of which, when originating in this cause, put on the intermittent type, or become periodical. This "Cure" expels the poison from the blood, and consequently cures them all alike. It is an invaluable protection to immigrants and persons travelling or temporarily residing in the malarious districts. If taken occasionally or daily while exposed to the infection that will be excreted from the system, and can not accumulate in sufficient quantity to ripen into disease. Hence it is even more valuable for protection than cure, and few will ever suffer from Intermittents if they avail themselves of the pro-

ection this remedy affords. Prepared by DR. J. C. AYER & CO., Lowell, Mass. All our remedies are for sale by
